PREPARED FOR HARVEST. C. P. R. Vice-President on the Outlook.

C. P. R. Vice-President on the Outlook.

Winnipeg, Man., Aug. 12.—Mr. McNicoll, vice-president of the C. P. R.,
who is here, when asked his opinion in
regard to the importation of harvesters
to the Canadian West, said: "I have
no doubt but that there will be plenty of
hands to harvest the fields of the Canadian West. We do not expect 10,000
people from the Maritime Provinces, but
we are perfectly convinced that fully
20,000 harvesters, including men who
are interested in the West from the
Eastern Provinces, will come to the Canadian West this year. I have traveled
through the entire West and through a
portion of the province of Manitoba and
I can say that the crops never looked
better and that the prospects were never
brighter. We have added to our plant
fully 50, per cent, to cope with the condition in Manitoba and the West. Wa
realize that we have a record crop,"
Mr. McNicoll and his party will remain
in Winnipeg for several days.

ndian Woman Says Oscar Anderson Threw His Companion Overboard.

City of Seattle Delayed By Ice -B. C. Electric Railway

Vancouver, Aug. 12.—The report from the fish traps is "no fish." The average

In the case of the ten sailors who refused duty on the steamship Empress of Japan because it was not their watch Police Magistrate Russell has decided that the case should not have been brought before him, as the men had been already punished by being docked two days' pay, and this action had been endorsed by the shipping master. He believed, however, that this had not been the right course for the captain to pursue. He should have told the men that he did not consider their opinion in the matter and if they did not go to work they must take the consequences. The men should then have been handed over to the court for refusing to obey orders. In the case of Oscar Anderson, arrested for murder at Steveston, an Indian woman has given evidence that Anderson, Markinson the missing man, and two Indian women were in the boat drinking, when Anderson struck Markinson and knocked him overboard.

The City of Seattle arrived this afterdorsed by the shipping master. He be

drinking, when Anderson struck Markinson and knocked him overboard.

The City of Seattle arrived this afternoon, having been delayed North by ice. She visited Taku glacier, and had some difficulty in avoiding dangerous collisions. Among the passengers were Detective Perdue, of Victoria, and G. A. Dickie, M.P.P.

The wages of the B. C. Electric rallway employees have been increased and the company will adopt a co-operative plan over the entire systems by giving their employees one-third of the profits of the company above four percent on the capital invested, the other two-thirds going to the shareholders.

James Roberts, a building laborer, fell 50 feet from the new C. P. R. hotel extension this morning, alighting on his neck and shoulders. He is terribly injured, but will likely pull through.

COL. PRIOR AT GRAND FORKS

Meets Various Deputations and Is Entertained at a Dinner.

Grand Forks, Aug. 12.—Col. Prior, ninister of mines, was waited on today y various deputations representing the A number of me minig industry. morials setting forth the requirements of the district were presented for submission to the provincial government. Assistance is sought for the improvement of various roads and trails, also the extension of the North Fork wagon road to Franklin camp, 60 miles north of the city; the building of a trail to the North Fork coal fields, a grant to the public school and the abolition of the 2 per cent, mineral tax. The Minister of Mines said he would lay the various memorials before his colleagues when he returns to Victoria.

He also addressed the Board of Trade tonight, and reviewed the steps taken by the provinical government to secure the building of the Coast-Kootenay railway. He added that McLean Bros., of Vancouver, have been awarded the contract. Col. Prior later in the evening was tendered a banquet at the Yale hotel. He leaves tomorrow for Phoenix and Greenwood.

Four by-laws calling for an expenditure of \$23,800 for civic improvements were adopted by the ratepayers of Corporate tolory by a large number? he district were presented for submis Admiral Douglass Will Discuss Subject

were adopted by the ratepayers of Co Fundia today, by a large majority.

DETAILS OF FIGHT.

Revolutionists Committed Terrible Havor in Barcelona.

Revolutionists Committed Terrible Havoe in Barcelona.

Port-Of-Spain, Island of Trinidad, Aug. 12.—Details of the fighting at Barvelona, Venezuela, received here by bout show that a terrible battle started on Sunday, August 3, and that on the following Wednesday the revolutionists entered the city. They kept up a continuous firing day and night, destroying houses one by one to the centre of the city. At midnight on Thursday, two-thirds of the city was in their power. On Friday the government strongholds were carried, and the survivors of the government officers tried to escape by the river to the sea. Failing in this, they made one last stand, after which at noon Friday they surrendered to the revolutionist commanders, Generals Francisco, Monagas and Platero. Among those taken prisoners are Martin Marcano, president of the State of Barcelona, and commander of the government tropes, eight generals, and 23 colonels. The dead on both sides numbered 167. All the houses in the city were sacked and in some instances inoffensive women and children were maltreated and killed. All stores were pillaged and especially those belonging to foreigners, and the French cable office was robbed. The Linited States, Italian and Dutch consultates were pillaged, and the consultave were pillaged, and the consultave were pillaged, and the consultave were filed office was robbed. The Topeka is anchored at Port Cabillo, the Marrietta is on the Orinoco, the German warship Falke, is at Curaco, and the Italian cruiser Giovanni Bausan, and the British cruiser Pallas, are at La Guaira.

Berlin, Aug. 12.—At the foreign office it was said today, that the German government knew nothing of the reported intention to land German marines at 4 orto Cabello, Venezuela, and that if the United States has sent a vessel to land marines there it must be for other reasons than the reported German landing. Commanders of the German warship in the Caribbean, it was added, would not go beyond their discretion if they considered it necessary to land a force to Morks.

Montreal, Que., Aug. 12.—Lessard & diarris, contractors, Montreal, have received a contract from the C. P. R. to construct four of the buildings for the new car and locomotive works which the company will establish at Hochelaga. The figure for all is \$235,000. The car shop will be the largest in the world, its length being 800 feet.

The C. P. R. has closed a deal with the McKee Lumber company, of Windsor, Ontario, to purchase a valuable river front property to provide facilities for handling the business of the salt industry.

Mayne Island.

Nanaimo, B. C., Aug. 12.—(Special.)—
For the pienic at Mayne island on Thursday the local Post Native Sons have extended an invitation to pioneers residents in this district to attend as guests of the Post. Such pioneers embrace those who came out in Hudson's Bay ships at various times.

The city water supply here has to be carefully guarded, and for this reason sprinkling lawns is forbidden for the present. This is due to the inability upon the part of Victoria firms to furnish at present required pipe for connecting the new reservoir with the old one. The streets will be watered with salt water in the meantime.

ONTARIO ELECTIONS. Petitions and Cross Petitions Are Now

Toronto, Aug. 12.—(Special.)—All petitions and cross-petitions arising from the recent provincial elections have now, it is thought, been filed, and arrangements for examinations will be made shortly. There are 33 straight and 15 cross-petitions. This is fewer than usual. After the election of 1898 there were 55 straight and eight cross-petitions.

ale grocers were surprised this mornng to receive advices from British Columbia to cancel all quotations on canned salmon. It was understood that the catch this year was a phenomenal one, and that prices would accordingly be lower.
The Royal St. Lawrence Yacht club

this morning, received a telegram from the White Bear club, Minneapolis, to the White Bear club, Minneapolis, to the effect that a challenge for the Seawanaka cup was on the way. The Oshkosh club, of Bridgeport, Conn., who were defeated in the series which closed yesterday, have also challenged, but only on condition that no other challenge is received. A challenge is also expected from Manchester, Mass. Sydney, N. S., Aug. 12.—President Ross, of the Dominion Iron & Steel Co., says there is absolutely nothing in the reported amalgamation of the Canadian and British steel industries to fight the United States trust. He says the question has not even been discussed.

Three Rivers, Que., Aug. 12.—The two Galardeau children were found by the police late last night at Gape Magdalene. It appears that the parents of the children had been separated for four years, the father coming to Three Rivers with the two children, and the mother following and taking up her residence at Cape Magdalene. The mother, together with a friend, drove to Three Rivers yesterday and in the absence of the father took possession of the children. The courts will now have to decide as to their guardianship.

New York, Aug. 12.—Application has been made to the Stock Exchange to list 2,310,000,000 rubles state four per cent, certificates of rente of the interior, dussian government.

KNIGHTS OF PYTHIAS. Order Is Officially Reported Over Half a Million Strong.

San Francisco, Cala., Aug. 12.—The biennial convention of the Knights of Pythias was formally opened today in the l'alace hotel. Nearly a hundred and fifty delegates were present; there were few vacant seats, and these will be filled tomorrow. The absent supreme representatives have all telegraphed that they will be here as soon as the delayed specials shall be able to move. Supreme Representative Walker C. Graves, of California, on behalf of the Executive committee, welcomed the visitors. Governor Henry T. Gage sent his regrets at not being able to attend in person, and sent a message of welcome, which was read by Myron Wolfe. Supreme Chancellor Fethers responded to the welcome of the Governor. The Supreme lodge then went into secret session. The committee of credentials reports the delegates all entitled to their seats. At the afternoon session reports were read. Supreme Chancellor Fethers in his annual report said that on December 31, 1991, the order had 540,128 members.

King to Soldiers

Expresses High Appreciation of the Work of Colonial Troops.

And Wishes Them Safe and Pleasant Return to Their Homes.

Sir Wilfrid Laurier and Gilbert Parker Leave for Jersey Today.

London, Aug. 12.—To the Colonial croops today the King said: "It has afforded me great pleasure to see you of expressing my high appreciation of your patriotism, and the way you distinguished yourselves in South Africa. The services you have rendered the Mother Country will never be forgotten by me, and they will, I am sure, cement more firmly than ever, the union of our distant colonies with the other parts of

my great Empire.
"Your stay in England has been long-er than originally intended owing to my

"Your stay in England has been longer than originally intended owing to my illness, but perhaps you have enjoyed it, and derived pleasure from visits to various parts of the land of your an electors. God bless you all. I wish you a safe and pleasant return to your own countries."

The choir, which sang at the coronation of King Edward in Westminster Abbey last Saturday, sailed today from Liverpool to make a tour of the United States and Ganada.

Toronto, Ont., Aug. 12.—The Evening Telegram's London special cable says: Sir Wilfrid Laurier will go to Jersey tomorrow in company with Sir Gilbert Parker. The Canadian Premier will visit Paris about the 20th. Sir William Mulock has gone on a trip to Paris.

Rresolutions signed at the Colonial conference covered the subject of commercial relations within the Emptre, advocated the common adoption of the metric system, favored an increase of Colonial grants to the Imperial navy and recommended that a conference be held every four years.

London, Aug. 12.—Two thousand co-

recommended that a conference be held every four years.

London, Aug. 12.—Two thousand colonial troops, here to attend coronation, including the Canadian contingent, were reviewed by King Edward today on the grounds of Buckingham Palace. The Hrince of Wales, on behalf of His Majesty, distributed the coronation meduls to those entitled to them. The King inspected the troops from the terrace, where he was accompanied by Queen Alexandra, Prince and Princess Henry of Prussia and other Royal personages, Barl Roberts, Lord Ritchener, Joseph Chamberlain, several Colonial Premiers, and King Lewarnika of Barotsela, all of whom showed keen interest in the picturesque body of men arrayed in varicolored uniforms as they marched past in single file.

The King personally fastened the Victoria Cross on the breast of Sergt. Lawrence, the first man in line, after which he retired to the shade of an awning and left the distribution of the medals to the Prince of Wales. The members of the Royal family were much amused at the unconventionality of the colonials, who, after they had received medals, scatted themselves comfortably on the grass and smoked as they watched the decoration of their comrades. When all had received their medals the troops advanced and presented arms while the massed bands played the National Anthem. The King stepped forward and delivered an animated address, which was greeted with cheers and waving of hats by the troops.

While the results of the Colonial conference which ended yesterduly are generally considered satisfactory as far as they we it must be understood that the

The preferential tariff arrangement is The preferential tariff arrangement is in a nebulous condition, depending endrely on future arrangements between the Mother Country and each individual colony, the understanding being that such arrangements would follow the general lines of the Canadian tariff. The foregoing arrangements do not represent the unanimous opinions of the conference, but each resolution was adopted by a majority vote.

SHIP BUILDING TRUST.

Amalgamation of Large Plants in United States

United States.

New York, Aug. 12.—The Trust Company of the Republic has to-day completed the payments for all the ship building plants held under the options of the United States Ship Building company, viz., the Bethlelhem Steel Co., Union Works, San Francisco, Cal., Bath Irou Works and the Hide Wind Glass, Bath, Me.; Eastern Ship Building Co., New London, Conn.; Harlem and Hollingsworth Co., Wilmington, Del.; Grescent Ship Yards, Elizabeth, N. J.; Samuel L. Moore & Son Co., Elizabeth, N. J.; and the Camden Mfg. Co., Camden, N. J. This consumates the transaction and the business will begin at once by concentrating in different yards, different types of vessels and introducing economies which are expected to result in increased profits over those of the independent companies before they were brought together.

OPPOSE THE POLICE.

French Country People Against Closing the Schools.

Paris, Aug. 12.—The commissary at Lesneven, Finistere, accompanied by a strong body of gendarmes, proceeded today to the village of Gouzec to expel the Sisters from the school there. The schools were defended by a crowd armed with cudgels and stones. One gendarme was unhorsed and the commissary was compelled to retreat, but later returned with a company of soddiers who protected him while he closed the schools amid shouts of "Long live liberty."

THE MYSTERY IS DEEPENING

Important Witness In Toronto Sensation Has Now Disappeared Suddenly.

From Our Own Correspondent.

From Our Own Correspondent.

Toronto, Aug. 12.—A further sensation has transpired in connection with the Front street warehouse mystery in the disappearance of Arnott White, assistant shipper, a very quiet and respectable young man, who left the warehouse yesterday to go home and has not been seen by his parents or fellow workmen since. He said good night to his fellow workmen on the street outside the warehouse and remarked: "If I don't show up in the morning and the poisons," His parents waited up until two o'clock in the morning for the young man, then went to the house of the manager, who, of course, knew nothing of the matter. White was an important witness in the inquest on the death of Whalley. The case will be remembered as that in which two employees were found dead within a few weeks under curious circumstances, while between the deaths a daring burglary and incendiary fire occurred on the premises of the warehouse, which is a wholesale drug concern of Evans & Co., Montreal company.

No theory is advanced for White's disappearance, but it is regarded as curious and mystifying in view of recent events.

Fire broke out about ten to night in the premises of the Toronto Biscuit factory, Front street, east. It was out in half an hour, but meantime did \$05,000 damage, of which \$-10,000 was in stock; \$20,000 to machinery, and \$5,000 to to damage of which \$-10,000 was in stock; \$20,000 to machinery, and \$5,000 to machinery, and \$5,000 to machinery, and \$5,000 to machinery and \$5,000 to machi

Rebels Are Playing Havoc With Town.

Washington, Aug. 12.—Minister Bowen has cabled the State Department from Caracas that the United States consul at Barcelona has informed him by wire that Barcelona has been taken by the revolutionists, that they are sacking the town, and that, in his judgment, the protection of a vessel should be immediately afforded him. Mr. Bowen says he has cabled the Gincinnati to return without delay. He notes that the Topeka is at Porto Cabella and the Maritana up the Terno river. Instructions were sent Porto Cabello directing the Topeka or Cincinnati to proceed to Barcelona. The vessel which remains will be prepared to land blue-jackets at Porto Cabello in case of necessity.

ASPHALT STEAL.

Shareholder Takes Action Against the Companies.

Trenton, N. J., Aug. 12.—Acting in behalf of W. C. Bullitt, of Philadelphia, John Douglass Brown, jr., an attorney, today sent here to be filed in the United States Circuit court, a comprehensive petition asking Judge Kirkpatrick to direct the receivers of the Asphalt company of America and the National Asphalt company to bring suit against the promoters, directors, and stockholders of the two companies, to determine their liabilities to bondholders of the Asphalt company of America. Mr. Brown also wanted the stockholders of the Asphalt company of America used for the unpaid assessments on their capital stock, which he claims amounted to \$24,000,000. When the Asphalt company of America was formed it was capitalized at \$30,000,000. This entire capital stock was issued, but was only paid for in part, it being sold on the basis of periodical payments. When the National company absorbed the American company the stock of the American company the stock of the American was taken up and superseded by sureties of the National company. This Mr. Brown claims was a fraud upon the holders of the securities of the American company. It is as holder of these securities that Mr. Bullitt has instituted.

upon the holders of the securities of the American company.

It is as holder of these securities that Mr. Bullitt has instituted his suit. He wants the unpaid assessments upon the American company stock collected for the benefit of the creditors and security holders of that company.

THE STAR

AT ALL BARS

POLLARDS SCORE

Enjoyable Performance By the Lilliputians at the Victoria Last Night,

The Pollard children repeated their success of Monday evening, "The American Millionaire," to a crowded house at the Wi-toria theatre last night. From a dramatic point of view the "American Millionaire" cannot be regarded as a success, for it is commonplace, containing little to commend in either plot or dialogue, but there are a few pretty airs which save it from utter condemnation. The clever interpretation, and the vim which the youngsers lend to its somewhat heavy lines, make the spectators overlook the faults of its construction and enjoy what, in less able hands, would be put a dreary performance.

Emma Thomas, as Major O'Neil, displayed strong talent for comedy and deciving their programmes. Willie Pollard and Nellie Thomas, as a pair of bandifs, were very funny, the former making a special hit by his grotesque make-up and facial contortions. Little Daphne was of course, the pet of the house. She is a wonderful child, who shows a weath of versatility far beyond her years. Miss Ivy Pollard sang and acted charman-dy and the same may be said of Alice Pot hard and Minnie Tapping. The dances, marches and choruses were excellent an served to round out the comedy very plans, the matthes and choruses were excellent and served to round out the comedy very plans, and the mattinee and to-night the beautiful Japanese comic opera, "The

Late of the construction o

production or the human unit during the last thirty years no increase in comfort has accrued from the increased production to the wage earner, the contention being that although wages are higher, the purchasing value of the dollar is so much lower that no benefit has resulted. The annual report of the operation of works by government, we could be supplying Australia with the iron and steel required there. To our mind there is nothing in the whole field of industry in which the has resulted. The annual report of the Massachusetts bureau of labor contains the more hopeless than in the manufacturations which throw a flood of light turing of iron and steel. The governstatistics which throw a flood of light on this intricate question. First, as to the purchasing power of the good dollar in 1902 as compared with 1872, flour is more than 51 per cent, cheaper; rice 20 per cent, cheaper; tea more than 21 per cent, cheaper; coffoo more than 36 per cent, cheaper; brown sugar 51, and granulated 56 per cent, cheaper; and soap and starch 34. This is considered and economically by the government. Such granulated 56 per cent. cheaper; molasses about 30 per cent. cheaper; and soap and starch 34. This is considered an era of high prices for meat, yet the retail prices of beef and veal is less today in the Boston market than it was in 1872, although mutton and pork are slightly higher. Lard is worth 10 verent. less and butter 23 per cent. less and butter 23 per cent. less than in 1872. Cheese, milk and eggs are also considerably lower in price. Coal costs 28 per cent. less; cotton goods of all kinds an average of over 40 per cent. less; boots about 50 per cent. less. Rentals for the smaller tenements have decreased, and for the larger tenements have increased during the period. The reduction in the cost of board has been about 30 per cent. Another set of statistics in the same report shows the percentage distribution could possibly be carried on economically by the government. Such an experiment so long as society is organized on a basis of private ownership and competition, could only result in disastrous failure; and if Australia is to wait for a very long time. No doubt the promoters of this Australia will have increased during the period. The reduction in the cost of board has been about 30 per cent. Another set of statistics in the same report shows the percentage distribution could possibly be carried on economically by the government. Such an experiment so long as society is organized on a basis of private ownership and competition, could only result in disastrous failure; and if Australia is to wait for a very long time. No doubt the promoters of this Australia will have increased, and for the larger tenements for the Australian and Oriental markets, and in competition, could possibly be carried on a experiment so long as society is or an experiment so long as society is or percentage distribution of income over the various expenditures of families with a small income. The year 1875 is taken Citizen:
for comparison with the present time.

Do not take too much stock in reports It appears that, of the families whose of the colonial conference which come income was under \$450, the distribution through American sources. It is to the was as follows: Subsistence, principally interest of the United States press to food, 64 per cent; clothing, 7; rent, 20; misrepresent the results of the confer-all other expenses, 9. A family with ence as much as possible in view of the the same income to-day devotes but 56 fact that any movement towards a fiscal federation of the British colonies would

per cent. to subsistence, 9.15 to clothing 21.96 to rent, and 12.89 to all other xpenses. The conclusion is inevitable that men earning only the same income are better off than they were in 1872. Their money goes further. It may not seem to go so far, but that is because many things regarded as luxuries then have become necessary to their comfort now. In addition to the increased purchasing power of money, there has been a notable increase in the average money te of remuneration and also notable decrease in the num ber of hours a day worked. other advantage should not be overlooked, the increased number of civilized enjoyments which a man is now able to enjoy either entirely free from cost to Delivered by carrier at 20 cents per week or mailed postpaid to any part of Canada (except the city) and the United States at the following rates:

enjoy either entirely free from cost to may himself or at a very low rate. It may still be argued that the increased comfort of the wave earner has not in-One year\$6 00 ergued that the increased comfort of the wage earner has not increased as fast as the productive power of the unit of t this is a question on which it is impossible to procure exact data, and diffi-THE SEMI-WEEKLY COLONIST possible to procure exact data, and diffi-ion, whereas it is a matter of certainty

AN OPPORTUNITY.

and desire for steady work.

At the recent session of the Federal Parliament of Australia resolutions were adopted advocating the establishment of government iron works, and a select committee was appointed to inquire into the question and report. This action on the part of the House has put a stop to the plans of the Australasian Iron and Steel Corporation which has con-templated embarking in the iron industry on a large scale. Messrs. Sandford and Thomas, agents of the company, recently made the following statement to the Sydney Morning Herald;

LIBERAL DISCOUNT on yearly and half-yearly contracts. For rates, etc., apply at the office.

"WHAT HO!"

A cigar in his mouth, and a glass in his eye,
A swagger young gent was hurrying by
On Government street.

He glanced in the window of seventy-nine.
To see that his tie was not in a line
With his ear.
But that idle glance sideways made him
forget,
Everything else, but what his eyes met,
In that window.

Things that he saw there made his eyes shine,
With a look that said plainly, "By jove,
how fine
Are C. and C.'s goods!"

Passersby wondered what was up with the man.
Whose coat tails they saw disappear as he ran,
Into the shop.

Down to seventy-nine now do take a walk,
And you'll never regret having taken that
stalk,
Down Government street.

Tis to smokers and bachelors I give this
advice.
For C. and C.'s goods are the lowest in
price

Local News.

Draymen's Pienic.—The annual pienic of the city draymen will take place of Sunday, I'th inst, at Florence lake.

School Board.—A more of the city draymen will take place of Sunday, I'th inst, at Florence lake.

School Board.—A meeting of the Board of School Trustees will be held Forest Fires.—Steamer Princess May, which arrived yesterday afternoon from Skagway, brought news that forest fires were raging on Cormorant island at the back of the settlement of Alert bay, which is located on a bay on the west side of the island. It was not thought that the fire would cause damage to the village. Fires were also raging on Malcolm island, where the Finns are to have their settlement just above Cormorant island. Formal Remand.—As had been arranged by the counsel, the hearing of the case of Col. G. H. Hayes, adjourned antil yesterday, was further adjourned for another week, Mr. Taylor being absent from the city.

Children Entertained—The members of the Pollard Opera company were entertained yesterday afternoon at the residence of Mr. B. Fawcett, on Victoria Arm. They went up in launches and boats, and spent an enjoyable afternoon. Just Borrowed Them.—Robert Irwin was charged in the city police court yesterday morning with stealing a pair of shoes, the property of J. Skinner. The two men have been working for Mr. John Haggerty. For some time a number of articles have disappeared. I esterday morning Constable J. Woods, detected Irwin wearing a pair of shoes which answered the description of a pair which Skinner had reported losing. When arraigned on the charge, Irwin admitted taking them, but said he had only borrowed them. A search of his shack on the Indian reserve brought to light a number of articles which it is supposed he stole, including a pair of pants. The heaving of the case will be resumed today. Just Borrowed Them.-Robert Irwin Wedding Announced.—The wedding f Miss Ada Georgina, daughter of the ite J. D. Pemberton, to Mr. Hugo R. V. Beaven, will take place at the R. E. hurch on Thursday, September 11, at o'clock, and the reception afterwards t "Gonzales." Correction.—In Tuesday's report of the proceedings of the City Council in Alderman Vincent's query re advertisement for tenders for the construction of Point Ellice bridge, the word "not" should appear. The alderman asked why the notices had not been inserted as per instructions.

Natural History Society,—A remarkably well attended meeting of the Natural diffstory Society was held Monday evening in their rooms in the Parliament buildings, the meeting being further enlivened by the presence of a number of ladies as visitors. After the usual round the statement of the stat Committed For Trial,—Mr. Moresby, who appeared for the defence in the case of Johnnie, the Indian charged with throwing an Indian woman through a window at the Occidental hotel yesterday, announced that he would reserve his defence, and the prisoner was thereupon committed for trial. was ordered to be furnished to the Royal Society of Canada, for publication in their proceedines, after which Prof. Cowan, of California, delivered an excellent lecture upon "Bee Culture." The eminent lecturer, who is an authority upon the subject, clearly and carefully explained the subject in a manner alike instructive and interesting to the audience, a hearty vote of thanks being tendered to him upon conclusion. The society is daily growing in numbers and importance. Soldiers Transferred.—The military authorities have been authorized to transfer to the first class army reserve the men of the Hoyal Garrison Artillery with eight years' color service, who were left here when the company went to China in December last. They have received permission to reside in Canada.

GAME BIRDS Laterary Meeting.—An "Evening with Longfellow" was spent by the Epworth Lengue of the Metropolitan Methodist church, Monday night, under the auspices of the Literary department. A brief sketch of this great poet's life was given by Mr. E. A. Lewis, and was followed by the rendition of a few of his poems by members of the lengue. A very pleasant time was spent. A short business session was held at the close. ARE PLENTIFUL

Resident of Duncans Reports **Unusually Fine Prospect** For Hunters.

Changes in Fifth.—Major Hibben, commanding the Eifth Regiment C. A., has issued the following Regimental order: "Regimental Sergeant-Major A. Mulcahy having reported for duty, will resume duty as Regimental Sergeant-Major, vice Acting Regimental Sergeant-Major Hollyer, No. 5 Co.—To be Acting Co. Sergt.-Major, Acting Regimental Sergt-Major Hollyer, Non-coms and men on duty with the last guard of honor may receive their pay at the office of Paymaster-Sergt, Newbury." been close season we could easily have filled the trap with grosse and pheasants without ever leaving the road. At one point we saw two deer in a clearing not far from the highway-one a magnificent buck with great horns and another smaller one, a two-year-old. So tame were these that they did not budge an inch at our approach, and it was not until we yelled at them that they moved off. Pheasants particularly are very plentiful, so much so that some of the farmers are complaining of them. "To give you an idea of how numerous they were last year, I may say that two of us in the office who do not do more than the average of shooting, bagged between us about a hundred cocks, and this year I am sure there are many more about than last.

"But illegal shooting is a great drawback, and notwithstanding the recent convictions and fines of \$25, poaching is still carried on. However extra precautions are being taken, and in every case of a conviction will be followed by an equally severe penalty. It is amusing to listen to some of those who are loudest in their protestations against poaching. I am told that three or four well known Victorians and others who as a rule are foremost in invoking the protection of game preservation acts, are themselves amongst the greatest sinners. The idea seems to be that their position gives them immunity from arrest. But with detectives at work, and a conviction south their mistake. Around Shawmigan lake, and the Saanich arm I am toid that pot hunters are regularly at work. "The best shooting in the neighborhood is to be had on the Indian reserve at the mouth of the Cowician river, and the Indians are exceedingly friendly to the residents of Duncans, so that all have practically the use of that magnificent game preserve. As to hostility the whites on the part of the Indians of that reservation, I have never learn anything. We residents of the locality certainly get along all right with them, but wherever they transgress the law in the way of netting salmon, and such like, they are invariabl ing the disarrangement of the system, transfers should be asked tor before leaving the car. The Beacon Hill and Octer wharf cars are compelled to discharge their fares at the lower end of Government street, and if it is proposed to resume the journey on the Spring Ridge or Douglas street lines a transfer is necessary, or otherwise a second fare will be collected. Strangers in town are not always aware of this, and as a consequence are made to pay two fares. Under Control.—Capt. Gibson, the Chemainus stevedore, who is in the city, yesterday received a telephone message stating that the fire which threatened the lumbering town, was under control, having been stopped before it could do more damage than that recorded yesterday. The big fire between Elk lake and Cordova bay is also burning itself out. It burned right around the barns of Mr. Carmichael, near Cordova bay, but did not reach them. .To Repair Engine,—The Deluge fire engine, which was purchased by the old volunteer fire department in 1869, and which has been out of service for some time, is to be overhauled and refitted, tenders for the work being asked from the different machine shops in the city. The engine when overhauled will be very useful in cases of long runs, and m winter, when there is snow on the ground, as she is much lighter than the new engines. This will give the city three engines, the "John Grant," the "Charles E. Redfern," this latter a Waterous engine, which cannot be depended upon, and the "Deluge."

are examined by the chergyman and receive marks once a month, prizes being given at the end of the year. The system has been in vogue for seven years and has proved very satisfactory. Mr. Wilson has at present 66 children on his books, divided into six classes, and a direct stand second prize was given in each class. The successful competitors in the higher classes were Bobby Collins, Arthur Walter, Mary Walter, Edwin and Carrie McFadden, Martha Whyms, Floric and Minnie Raynes. A very pleasant snot was selected for the gathering, in the cool shade of a copse which had been cleared and decorated for the occasion, and, notwithstanding the great heart, all enjoyed themselves greatly, some playing at croquet, others at ping pong. Young and old—shout 80— were present altogether. The ladies sale yealized \$27. seed with means to prevent the escape of fire.

Section 14 of the act is as follows:
It shall be the special duty of every government agent, gold commissioner, timber inspector, forest ranger, mining recorder, and provincial police officer or constable to enforce the provisions and requirements of this act, and in all cases coming within the knowledge of any such official, officer or constable, to prosecute every person or body corporate by whom there is reasonable cause for believing any contravention of this act has been committed.

STERN CHASE.

Drunken Indians Try to Evade Officer by Putting to Sea.

by Putting to Sea.

A goodly supply of whiskey found its way to the Songhees Indian reserve yesterday, and there were "doings" across the harbor. As the Indians commenced to zet noisy word was sent to the police station, and Constable Blackstock was sent over to put a stop to it. When the Indians sighted the blue uniform and silver buttons in the distance they took to a cance. The officer followed, and an effort was made by the crew of the canoe to Shanghai him, but thinking retreat the better part of valor he took to the water and made his way to shore. Reinforcements were sent for. Sergt. Hawton, Constable Abbott and Special Officer Carroll responding. A boat was secured, and with Officer Carroll as pilot and boat-puller, the possestarted in pursuit of the Indians, who were describing all kinds of circle around the harbor. The canoe was overtaken and lassoed and the four occupants, all much the worse for firewater, were taken to the police station in express wagons.

Discovery of Platinum

Rare Metal Reported Found in Output of Rossland and Sandon Commercial Quantities Near Rossland.

Values In Gold and Silver.

Rossland, B. C., Aug. 12.—An interesting and important discovery has been made in connection with ores of the Contact Mines, Limited, located in the Burnaby section on the Columbia & Western railway, about 20 miles from this city. Henry P. Jackson, managing director of the company, which is a Scotth concern, suspected the existence of platinum in the ore, and took an average sample from the vein for 80 feet.

This was assayed and found to contain-gold, silver, and platinum. It was then sent to refiners in Newark, New Jersey, and yesterday a report was received to the effect that the ore carried platinum to the extent of one quarter onnee troy per ton. The refiners state that this was a commercial quantity, and asked leave to make a bid on the concentrated output of the property.

The discovery is regarded as of the utmost value owing to the high price of platinum and its rarity. The ore carries ten to twelve dollars in gold and silver, and is as excellent paying proposition. It is the intention of the company to equip the property at once with a concentrator and transway. Development work has been under way for a considerable period at the Contact mines, and so a grown of the company to equip the property at once with a concentrator and transway. Development work has been under way for a considerable period at the Contact mines, and so are already taken out.

FIRE MOUNTAIN MINE.

FIRE MOUNTAIN MINE.

Good Offer For Working Bond De-clined-Important Find of Silica,

clined—Important Find of Silica.

Vancouver, Aug. 12.—(Special.)—There is much enquiry for Coast, properties of late. A \$200,000 working bond was recently declined for the Fire Mountain free-milling proposition in the Harrison Lake district. It is said a deal will be closed in a short time for a large property in Frederick's Arm, carrying gold in silica. The ore on account of its silicious nature is greatly in demand at the smelters, the Tacoma smelter securing its silicia in Nevada, and paying the freight on it from there.

NEW COAL FIELDS.

Located in the Okanagan Valley by the Ashnola Smelter Company.

Ashnola Smelter Company.

D. R. Young is back from a prospecting trip through the Okanagan district, from Vernon to Penticton, made in the interests of the Ashnola Smelter company, says the Nelson Daily News. He was successful in locating several thousand acres of coal lands within easy reach of transportation on Okanagan lake. The principal location was made on Mission creek, about six miles back from the lake, where he staked over 5,000 acres of coal lands. The other location was made on Trout creek, two and half miles from the lake and consisted of twelve hundred and eighty acres. There is an eight foot seam on the Trout creek property, samples from which have been assayed by A. L. Mc-Killop, with very satisfactory results. Mr. McKillop states that the coal is first class for steam and domestic purposes.

The Ashnola Smelter company will

speed to the new strike.

Prospector Receives \$37 in One Day From Abandoned Claim.

An instance of the way that a placer An instance of the way that a placer proposition may be worked over without exhausting the deposit of gold is afforded by the operations of an old prospector at present working along Hall creek "crevicing." Yesterday he took out \$37 of coarse gold and the day before \$12, and a number of the nuggets run from \$2 to \$3 each in value.

day before \$12; and a number of the nuggets run from \$2 to \$3 each in value.

The portion of the creek bed he is at was worked in 1865, when the first gold excitement was on in British 60-lumbia. Since then several sets of Chinamen have put in varying lengths of time, and the gravel has been worked down to bedrock. This prospector, however, makes his living going from one worked out placer property to another and searching for crevices in the bedrock. It is reported that he has been very successful. He has put in the present season working on Forty-Nine, Bird and other creeks in the vicinity of Nelson. Long practice at the work has made him very expert at detecting these crevices, as is shown by his finding nuggets worth over three dollars on gravel that has been worked over by Chinamen.—Nelson Daily News.

Not one in twenty are free from some little aliment caused by invertige and of the caused by invertige and of the creeks and in the present will be a pleasant surprise. They give positive relief.

RICH STRIKE IN YUKON.

Sixty Mile River.

AWhat is calculated by those in authority to speak as the best discovery of gold since the days of the Eldorado, was recorded at Dawson on Saturday, Adgust 2, by two Frenchmen. The new strike is located on a tributary to Sixty Mile river, 30 miles back from the Yukon. F. Boucher and B. Hout, the Jocators, in filing their allidavits, state that they found pay dirt running from 10 cents to a dollar to the pan. A big stampede is now on, a party of a hundred having consummated a deal for chartering a large steamer to take them with all speed to the new strike.

MINING IN SKEENA.

Prospectors and Owners Doing Assess ment Work—Railway Wanted.

C. W. D. Clifford, M. P. P., for Cassiar, who has returned from a visit to 8keena river points, reports that ming operations are practically confined this season to prospecting and assessment work.

The difficulty and expense of getting in supplies and machinery under present conditions are so great that owners of valuable properties are deterred from attempting to do more than hold their claims until the long expected railway is constructed. Were that an accomplished fact, Mr. Clifford is confident that the Skeena would be the scene of great mining activity, as there is no doubt-whatever as to the richness of the mineral deposits, which are second to none in the province.

Prospector Receives \$37 in One Day

Or coal, of a good quality.

Twenty-two claims on Baker monntain, in the Fort Steel district, owned by II. W. Melton, R. Helmne and S. Johnson, have been bonded to the New York Steel Trust for the sum of \$160, 000. The property is stuated on Baker mountain, three miles from Fort Steele junction, on the line of the Crow's Nest branch of the C. P. R. railway, and consists of a group of 52 claims.

4I. C. Miner, president of the Granby smelter, said recently at Grenwood: "In a determined that our industry will not be hampered again by lack of coke. In an determined at the skeena would be the scene of the Boundary can be treated at a profit, we intend to confinue developing our mines and increasing our smelters and refining works, and I am determined the confinue developing our mines and increasing our smelters and refining works, and I am determined the continued the second to not the province.

and has been made the subject of industrious warnings, has been ignored in speculation. There was considerable strength at one time today in a few cash-cases. It persisted to the last but for the best part the early rise in prices was taken advantage of for realizing profits, and the general lever of prices turned out to be lower than last night's.

GOLD DECLINING IN VALUE.

GOLD DECLINING IN VALUE.

Until recent times both gold and silver have been used as measures of values, and both have been produced by manual labor, assisted by such tools as the miner could carry with him. As neither metal occurs in large masses, the amount of effort required to produce them long remained a nearly constant quantity, from which fact the interest of the production of the fact that they represented defining a silvent of the fact that they represented defining a silvent of the fact that they represented defining a silvent of the fact that they represented defining the fact that they reason of the fact of production, and this reduced cost of production, and this reduced cost was production, and this reduced cost was production, and this reduced cost of producting the last decade concentrated effort has been, and is now, reduced, by a fall in the price of the fact of th

From Rossland World :

From Rossland World:
According to a report from Consul-General Bittinger at Montreal, a natural soap mine has been discovered in the footbills near Asheroft, British Columbia, A company has been formed to work it, and already 275 tons have been taken out. The composition of the soap seems to be about one-fifth borax. It is said that there are 20,000 tons of the material in sight.

"Well, Maria," said the old man, as he got down from the wagon sent where he had been patiently waiting, "did you see all the animals?"
"All but two," she said, with a sigh. "I hunted the longest time, but I couldn't seem to find the carnivora and the egress. I expect they was the best part of the show, too."

in Session

Discuss Agricultural Lands and How Farming Should Be Carried on.

Several Essays Read to the Members at Meeting Last Night.

Agricultural lands was the subject for clucidation at the meeting of the Voters' League held last night, but before the session was through many other matters came up for discussion.

R. Seabrook was voted to the chair. The city clerk by letter acknowledged the receipt of the league's recommendation with respect to a delegate to the convention at Grand Rapids. Filed.

The department of U. S. Geological Survey, Philadelphia, asked for a copy of the league's report on iron and steel. Copies of the report will be forwarded to the writer. Championship How Mr. Goward Lost His Title

or the league's report on iron and steel. Copies of the report will be forwarded to the writer.

C. B. Redfern said that he had been asked by Mr. W. F. Robertson, provincial mineralogist, to bring before the league the fact that the government reabout to make a collection bearing on the subject of iron deposits. He had said that the government was fully alive to the value of the subject. Owing to the small amount of development of iron deposits it was utterly impossible to form a definite idea of the quantity.

While searching for markets for init would be well to find.

The following resolution was then passed: "That the committee having the question in hand, be requested to interview the government and impress upon them the importance of the agricultural industry and that they be asked to appointed by the Voters' League and proceed to Campbell river and make a complete report on the lands in that look the small amount of development of iron deposits it was utterly impossible to form a definite idea of the quantity.

While searching for markets for init would be well to find. Change in Management of

Vancouver Baseball Company Has Deedded to Disband—New Manager.

"The Vancouver Baseball Company, Limited, which is composed of Mr. H. C. Clark (president), Mr. J. Schoffeld (treasurer), A. J.| Mayo (manager), and A. E. Tulk (assistant manager), has disbanded, and the team is now under the management of Mr. L. W. Cohen, the well known manager of the B. C. Clothing Renovatory, says the Vancouver News-Advertiser. The management came to the conclusion of disbanding on Saturday night at a meeting held in the club's offices, next to the Commercial hotel. The action was taken by the management owing to the poor article of ball which the men have been putting up in the last eight or nine games. Such ball, President Clark said, was such that the public had lost faith in them, and the management said of art this season the company has send it at amounts in 200 per mouth, and so far this season the company has send it and in the greater number of cases has succeeded in this. A meeting was held last night, and the team is now practically in Mr. Cohen's hands. He will have the boys under his eye, and will see that they practice steadily. Next week the team will leave on a two-weeks' tour through Washington and Oregon, playing in Pendicton, Dayton, Walla Walla, Chemawa, Everett, Tacoma, and many other cities. When they return games with these teams. The players have promised to do their utmost and first class ball is now looked for by the fans, report on this subject as follows:

I would like to supplement my paner of last week with a few additional remarks and figures bearing on the subject of agriculture and immigration. In my former paper I quoted figures showing be quantities of farm products imported from the Stattes into this province. Now I will give you the quantities of the same products imported from the Eastern provinces. The figures are taken from the Sixth Annual Report of the Department of Agriculture and are astonishing enough to arrest the attention of everybody. We imported from this source:

Bacon and hams, ibs. 4,048,000

rom this source:

3 accon and hams, lbs. 4,048,000

3 ork bs. 838,000

2 ork bs. 480,000

2 cyrs, dozen 1,220,000

3 grs, dozen 1,220,000

3 atter lbs. 2,258,000

2 heese, lbs. 810,000

2 hodensed milk, lbs 1,417,748

2 anned fruit and vegetables 3,370,000

8 solides many other articles for which we en they return home they will have regames with these teams. The players promised to do their utmost and first shall is now looked for by the fans, "gotlations are pending for games with couver in this city on Friday and Sattly of next week, Victoria to play the ragames the following Monday and sday, thus commencing their toar at Terminal City.

"at Saturday the Victorias will play Nonparells of Seattle, a team composed by of professional players.

EASTERN BASEBALL LEAGUE. t Worcester, Mass.—Worcester 10; Roster 1. cond game—Worcester 1, Rochester 4, t Newark, N. J.—Newark 5; Montreal At Providence—Providence 9; Buffalo 1. AMERICAN LEAGUE.
At Cleveland—Cleveland 6; Baltimore 3.

The last test match between the Australian and English cricket teams was continued yesterday at Kensington Oval. The English players were al' out today in their first innings for 183 runs. The Australians were all out, for 324 runs in the first innings Monday. At the close of play the Australian players, in their finnings, had scored 114 runs for eight wickets down.

Native Sons' Excursion and Picnic to Mayne Island Tomorrow. The Native Sons have chartered the stramer Yosemite to take them to Mayne island, where they hold their first annual pienic tomorrow. The stramer will leave here at S a. m., and returning will arrive back at S p. m.

Mayne Island follows:

Vision:
Ayes: Ald Grahame, Cameron, Vincent, Yates and Barnard.
Noes: Mayor Hayward and Ald Williams, McCandless and Kinsman.
The Mayor said that as soon as the street railway company had accepted the plans for the Point Ellice bridge he would call a meeting of the streets committee so that tenders could be called for.

WORD

there would be large quantities available.

'Mr. Morley thought that there must be large tracts of lands which while not available for settlement are really not legally held.

A Henderson said an effort should be made to survey the lands. It was only a few miles back from the coast of the Island and the lands were terra incognita. mittee so that teneric coan a for.

There was some desultory discussion as to what plans Mr. Bell had to supply the city.

Ald. Barnard's motion providing for a plebiscite as to which of the two sites owned by the city should be used for the Carnegie library, was laid on the table until the petition for a new by-law is considered.

contract price and guaranteen not to take any gravel from beaches within the limits.

Ald. Cameron said the city engineer had suggested that the gravel be taken from Mr. Haggerty until a further arrangement be made, when it might be as well to get it from two contractors.

The letter was referred to the engineer to report, he to be authorized to get what gravel he requires until a new arrangement is entered into.

Tenders were received as follows for printing and binding volers' lists: T. R. Cusack. \$1.60 per page; Colonist Printing and Publishing Company, 75 conts.

Referred to the purchasing agent to award to the lowest tenderer.

John Sigurdson, assistant caretaker of Ross Bay cemetery, was promoted to the position of caretaker, vice the late Mr. Allen. He will be asked to recombend an assistant.

It was moved by Ald. Vincent, seconded by Ald. Grahame, that a concrete sidewalk be laid in front of the Hudson's Bay building on Wharf street. The resolution was passed.

Ald. Williams asked the privilege of

in the matter.

Mr. Shakespeare said the reason nothing had been done was because the people were asleep and had done nothing for themselves. If the people took an interest in the matter the government would too.

Mr. Scabrook thought that clearing land cannot proceed without cheaper labor. If that difficulty was solved the matter would go a long way towards helping settlers. It was impossible to clear land unless the settlers had cheap labor.

A gentleman wished to know why it was that butter, eggs and milk cost more in Victoria than they did in Seattle; whereupon he was informed that all these things had to pay duty when imported. The first speaker retorted that he didn't think that the hens of British Columbia were laying duty paid eggs.

F. W. Best mentioned an instanace of one farm where the receipts were \$9,000.

Another gentleman stated that cost much to clear land here.

C. H. Lugrin said it cost \$125 per acre to clear land in Washington and that milk cost 5 cents a pint in Seattle and cost 10 cents here and eggs and butter were also higher here.

Mr. Morley thought that small farms paid the best. The trouble was that people in the West bit off more than they could chew.

W. M. Wilson also addressed the meeting.

P. C. MacGregor followed and spoke of the necessity of giving intending settlers alther information they needed. A liberal land policy was what was necessal sary.

A gentleman from Chicago gave his everience and said that hunt as he contention of the addrenance of the council ont that if the Mayor's estimate as to the surplus was organized to the council ont that if the divertible of the council of next year could chew.

Mr. Morley thought that small farms paid the best. The trouble was that people in the West bit off more than they could chew.

Mr. Morley thought that small farms paid the best.

The troule of it.

Ald. Cameron pointed out that ther was another way out of frontage taxes for water and sever mains. They had the power mains. They had the power mains.

Ald. Barnard contended that i

Mayor Hayward contended that the Government had not been asked for the money for a bridge, but to meet the extraordinary expenditure in settling the disaster caims.

Ald, Grahame held that the money

Shinano Maru From the Orient

Nippon Yusen Kaisha Liners Come and go..Princess May in Port.

Brings Report that Islander Has Been Located in 52 Fathoms.

freight is taken into Siberia and nria. They were bound to Se-Mr, and Mrs. H. Blackman, the a Yokohama merchant, were en o Portland. Rev. J. F. Wilson, Charles, missionaries from Shang-H. Tracy, a merchant, Mr. and

covered from the missing shop after the fire, and the remains of three from the crystalising shop. Two more bodies were subsequently from the debris.

From Hongkong the steamer brought news that those at present concerned in the Pakshan have degided to make no attempt to raise her. It is reported that an engineer from Swatow is going to endeavor to raise the submerged vessel,

KINSHIU MARU.

Sails For Orient With Large General Cargo,

Cargo.

Steamer Kinshin Maru, of the Nippon Yusen Kaisha line, Capt. Pyne, sailed from the Outer wharf yesterday afternoon for Yokohama and the ports of China and Japan with a full cargo of General freight, including 1,200 bales of cotton—a much smaller consignment than usual—2,000 tens of flour, a large amount of electrical machinery, domestic and manufactured goods, tobacco, and general merchandise for many parts of the Orient from Vladivostock to Singapore. The steamer had 12 saloon passengers. Included among these was T. Fujia, Japanese consul at Chicago, who with his wife and family are returning to Tokio. Mr. Fujia has been in the consular and diplomatic services for the last 16 years. He first was appointed an obscure under-secretary at the Japanese legation in Honolds. Wi

Steamer Shinano Maru, which arrived yesterday from the Orient, brought the news that the Empress of China, which went out from here four days late to attempt to break aff records for the run across the Pacific, was 10 days and

ISLANDER LOCATED.

during the week prior to the sailing of the steamer on July 20th being 231, of which 142 were fatal. The experts say the disease was brought to Karatsu by a Chanese junk and has sprened from there. The report of the finding of the steamer is not confirmed by any advice received by Capt. Co. Loyds agent in this city, whose last life the part of the steamer of the part of the canner of

MARINE NOTES.

Steamer Boscowitz sailed last night or Nans and way ports with a fair cargo of cannery supplies and general-mer-chandise for the various Coast settle-

Salmon Still Dodging Traps

President Drysdale Arrived on Wigwam In Search of the Sockeyes.

Said to Be Interested In Applications for Foreshore Rights.

Drysdale's visit was in connection with applications for foreshore rights on the Vancouver Island Const, which are being made by Victorians with whom the Alaska Packers' association are interested in the venture, for the issuance of permits for traps on this side—which it is understood will occur next year—the Alaska Packers' association, according to well informed persons, intend to interest themselves in traps on this side. According to advices from the North the catches on the Skeena river have been very large.

One cannery broke the record, putting up the largest pack in the history of the North, and one that will compare very favorably with the largest packs put up this season on the deraser river. The lacky cannery was the Anglo-Hritish Columbia's plant, of which Mr. W. R. Jord, well known in this city, is the manager. It is one of the canneries controlled by Messrs, Bell-Irving & Co. of this city. The pack put up went just over 34,000, which is several thousand better than was ever before

A CURIOUS WOUND.

cr. weighing fourteen bounds, he was surprised to see a little piece of iyory stleking from its breast for two inches. With difficulty he pulled it out, for the flesh had grown around the arrow. Then he saw that it was an arrow eight inches long, and about as think as a lead penell. The carvings on the stem where it was tied to the arrow stek are still visible. No arrow of the sort was ever seen here before. The bird evidently carried it thousand upon thousands of miles from the Far Nottl, where it was shot by some Esquimaux.

Thoroughness.

Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, states that "Sunlight Soap has "a thorough cleansing power, with" out danger to the clothing or skin." Women who want washing done thoroughly cannot use better than Sunlight Soap—Octagon Bar. Unlike common soaps, there is no damage to the clothing, and no danger to the skin; hence the say damage to the clothing, and no danger to the skin; hence the saying: Sunlight Soap reduces expense. Try Sunlight Soap—Octagon Bar—next wash day, and you will see that Prof. Ellis is right. He should know.
